

**Remarkably tough.
Delightfully affordable.**

Premier brake linings.

In today's competitive market, keeping cost down means gaining an advantage over your competitors.

Introducing **Premier**, the all-new brake lining that is tough on the road but easy on your budget. It helps you lower your maintenance bills without braking on performance.

Reliable Braking Power

Premier is developed to offer good stopping power and reliable resistance to wear under a wide temperature range. Its FF and EE friction ratings make it suitable for use on S-CAM brakes on light and heavy trucks and trailers. It offers excellent value for money, allowing operators to fit a dependable product developed and produced for tough conditions.

More Value for Money

Rigorous road and dynamometer tests show that **Premier** offers competitive cost-saving per kilometer. It also gives you more versatility as it can be used as brake lining or riveted shoe.

Drive your business forward. Choose **Premier** as your reliable low-cost alternative.
